

Cost of Home

Help Habitat make the #CostOfHome something we all can afford.

the issue: housing affordability

Families in Milwaukee and all across the United States are paying too high a price to cover the cost of their home. Rents and homeownership costs are skyrocketing, while wages are not keeping pace. Far too often, families struggle to make ends meet. At Habitat for Humanity, we know that a family should never have to spend more than 30 percent of their income on a home.

1 in 3 Milwaukee renters pay half or more of their income on housing.

That is unacceptable.

That means that 1 in 3 families are denied the personal and economic stability that safe, decent and affordable housing provides. Instead, 1 in 3 families are forced to make impossible choices.

Safe homes. Nutritious food on the table. Health care. Access to good schools. Reliable transportation. Which would you choose?

Habitat for Humanity knows the complexities that surround the cost of home. We also know the struggle, stress and pain of far too many families in our communities. And we know that those with the fewest resources are forced to make the hardest choices. We have to take a stand and declare our commitment: **No family should have to pay more than half of their paycheck to cover the cost of home.**

On average, a cost-burdened renter had **less than \$10 in savings in 2015**

how Habitat makes the #CostOfHome affordable:

Affordable Homeownership
Habitat homeowners help build their own homes and pay an affordable mortgage

Affordable Repairs
Helping residents stay in their homes through affordable critical home repairs

Community Engagement
Mobilizing community members, partners, and volunteers to advocate for affordable housing

Building Block-by-Block
Clustering brand new homes in neighborhoods reduces crime and increases property values

“What I like about Habitat is that you’re not living above your means. I’ll be able to save for the future.”

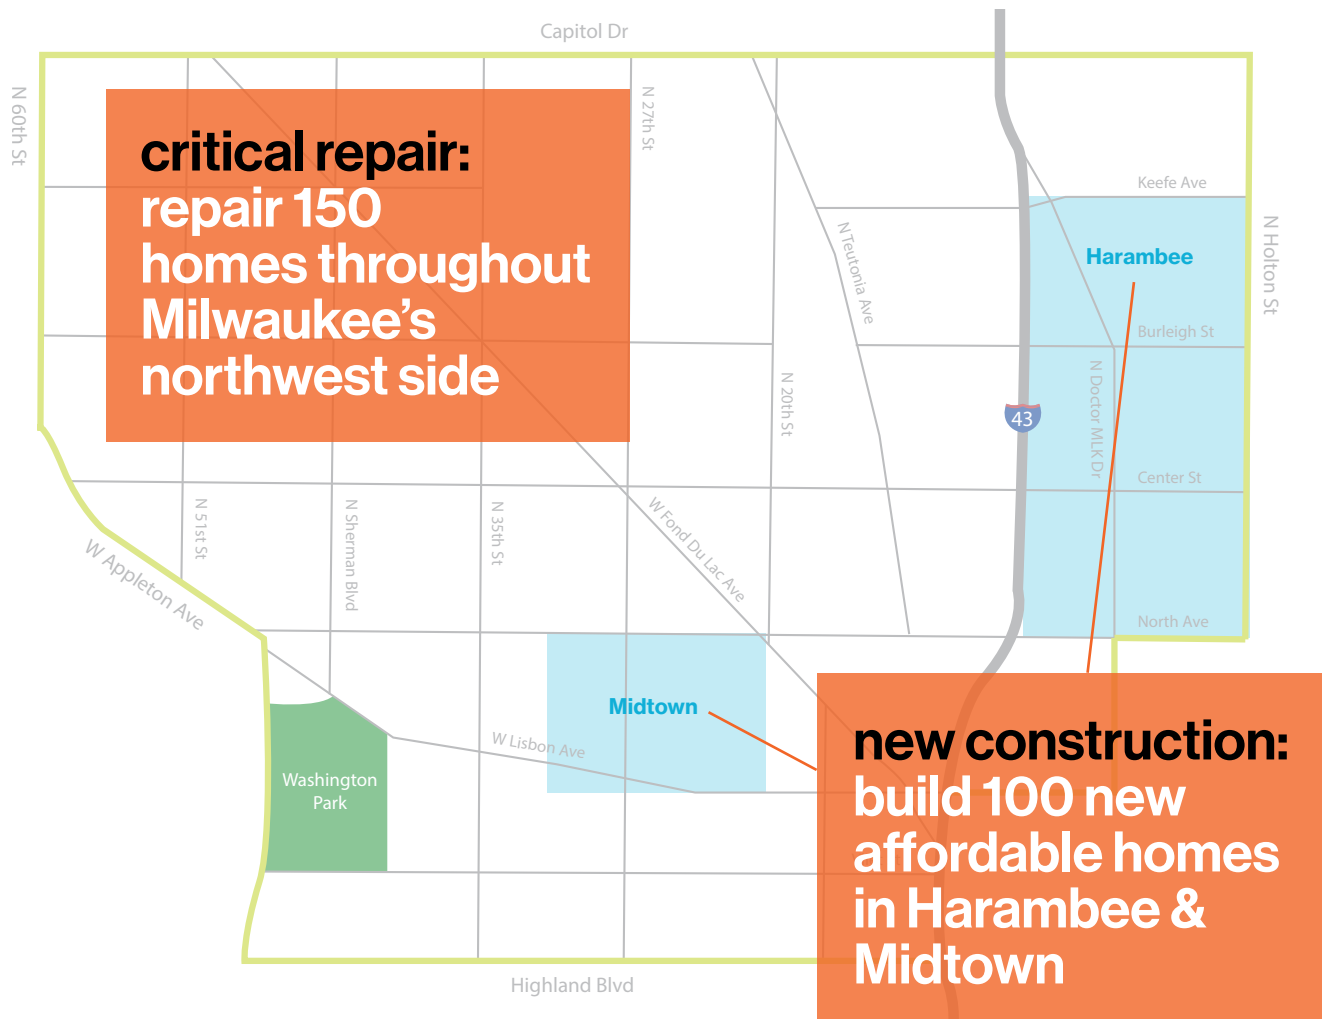

Dedra
Future Habitat Homeowner

In 2016, housing prices rose **twice as fast as inflation in the U.S.**

our plan: serve 250 families in four years

2020-2023

In 2018, Milwaukee Habitat launched the most ambitious project in our 35 year history: Midtown 100. Midtown 100 is our plan to build, rehab and repair 100 homes in the Midtown neighborhood.

In 2020, Milwaukee Habitat is expanding our new home construction to the Harambee neighborhood, while simultaneously building in Midtown and providing affordable home repairs throughout Milwaukee's northwest side.

Together with all of our crucial supporters, we will invest more than **\$18 million** to serve 250 families in need of safe, affordable homes in four years.

a need for affordable homes in Harambee:

- The median household income in Harambee is \$19,300.
- Even though nearly half of Harambee residents live in poverty, median rents are more than \$800 per month. Those prices are similar to areas around Humboldt Park in the Bay View neighborhood, where poverty levels are less than 10%.
- Only 22% of the homes in Harambee are owner-occupied.
