

Women Helping Women Rise Strong!

Habitat homeownership creates independence, stability, and strength for families and neighborhoods. Our annual Women Build brings together friends and colleagues from across our community to raise funds, walls, and awareness - creating affordable homeownership opportunities for more families in Milwaukee.

Women Build Week offers a unique opportunity to bond with each other and your community. We provide the tools and equipment – You provide the hands and heart.

“

I had a very empowering day building with other women to support women in the community!

”

- Women Build Participant
