why partner with Habitat

Team Building

Habitat for Humanity offers the ultimate team building experience for community-minded businesses and organizations. Your team will join together to help a local family build a safe, affordable home. In the process, our expert staff members will **empower your employees** to accomplish tasks they may never have thought possible. From working alongside one-another to raise the walls of a home to painting a child's future bedroom, your team outing will create lasting results. Our experienced house leaders instill confidence and safety in volunteers of all skill levels, whether they know their way around a tool box or have never picked up a hammer.

Change Lives

What separates Habitat from other team building activities? **The families.** Your support will break down the barriers to homeownership for local families struggling with unsafe, unaffordable and overcrowded housing. Habitat homeowners work alongside volunteers to build their homes and pay an affordable mortgage, made possible through your sponsorship. This meaningful investment will not only have an impact on your team, but on a local family for generations to come. Sponsors at \$25,000 and above receive exclusive rights to a Habitat home including priority scheduling for team building activities, branding at the build site, and access to a home dedication with the family when the home is complete.

Local Impact With A Global Presence

Habitat for Humanity is known throughout the world for building homes, communities and hope. Forbes ranks Habitat seventh in its list of **America's Top Charities of 2023**. Leverage our trusted and recognizable brand with employees, clients and customers. Habitat build sites provide the perfect setting for team photos, videos, or even media events. Off the build site, sponsors receive a branding toolkit complete with the creative assets necessary to demonstrate your commitment to our community.
